

Every week 20 tradesmen die
from this hidden killer.

ASBESTOS

Any building built or refurbished before the year 2000 could contain asbestos, which is one of the most lethal dangers in the workplace.

Every year there are still 4,000 deaths from asbestos related diseases. You could be working where asbestos is present right now.

Don't you owe it to your workmates, your family and yourself to find out more?
